INTERNATIONAL PRIMARY IMMUNODEFICIENCIES CONGRESS - IPIC2025

Dear Colleagues,

On behalf of the International Patient Organisation for Primary Immunodeficiencies (IPOPI), we are delighted to invite you to sponsor or exhibit at the **7th International Primary Immunodeficiencies Congress (IPIC2025)** which will be held on 5-7 November 2025 in Prague, Czech Republic.

IPIC2025 is once again set to unite a diverse assembly of global congress attendees, predominantly comprised of doctors engaged in various clinical and scientific disciplines, alongside patient group leaders, nurses, industry representatives, and other healthcare professionals. This pivotal event will uphold its tradition of offering an international, multi-disciplinary platform within the realm of primary immunodeficiencies (PIDs), presenting a distinctive opportunity for companies to showcase and elevate their profiles to a broad audience of clinicians and key stakeholders in the field.

Building on the success of its last edition in Rotterdam in 2023, which drew 900 participants from 70 countries, IPOPI aims to not only match but surpass this number in Prague. Acknowledging our esteemed colleagues in the Czech Republic, IPOPI expresses gratitude for their involvement and support towards the congress.

IPIC has solidified its position as the foremost international congress on PID clinical care, distinguished by its unique scientific programme underscored by a commitment to patient-centredness. The CME-accredited clinical program of IPIC is meticulously crafted to complement other established international congresses and meetings, including APSID, ARAPID, ASID, ESID, LASID, and SEAPID.

The congress's scientific programme will remain dedicated to pivotal developments in PID diagnosis and clinical advancements, featuring lectures from globally acclaimed experts in the PID field. Esteemed key opinion leaders have enthusiastically agreed to contribute to the congress's organizing and scientific committees. The uniqueness and the cornerstone of IPIC's success is anchored in its uniquely balanced and clinically oriented scientific program, crafted with input from key PID stakeholders, including doctors, patients, and nurses.

We invite you to review this sponsorship proposal and explore the wide range of sponsorship and exhibition opportunities. Your participation will not only enable you to reach an international audience of key opinion leaders and stakeholders, but also play a crucial role in advancing clinical and research knowledge in the field, thus promoting enhanced global access to diagnosis and treatment for PID patients.

Should you need additional information, please do not hesitate to contact us at:
IPOPI, Executive Director: Johan Prevot (Tel: +32 2 790 73 66, Johan@ipopi.org).

We look forward to seeing you in Prague!

Best regards,

Martine Pergent
President, IPOPI

QUOTES FROM PREVIOUS CONGRESSES PARTICIPANTS:

“The best aspect was that we got to see some of the best immunologists in the world”

“Great variety of topics discussed and very focused on patient-centred care”

“The integration of medical, nursing, patients and scientific staff in the sessions. The comprehensive programme that did not have concurrent sessions allows all participants to experience all of the learning opportunities without fear of missing out. This also promotes integrated working and collaboration, even outside of the conference”

“Great networking opportunities, presence of nurses and patients”

“The presentations were on point and the speakers were wonderful. I also enjoyed the key-note speaker”

“The guided poster walks were super innovative, amazing”

“Excellent programme and excellent speakers”

“I really enjoyed the whole event. Great sessions with a good mix of science and patient testimonials! I also liked the general atmosphere”

“I learnt so much from the PID pioneers in attendance, Thank you IPOPI!”

“I will reconsider a multidisciplinary approach of patients”

“Collaborate with other colleagues and use the international registry data for better patient care”

“Ethical dilemmas were useful to listen to because we face them”

CME ACCREDITATION

OUR COMMITMENT

The organisers are committed to provide international CME accreditation to all congress participants and to maximise the CME credits allocated to the congress.

IPIC2025 is an educational CME accredited clinical meeting. An application to the relevant CME accreditation organisation(s) will be made once the programme is finalized.

COMPANY SYMPOSIA

It should be noted that company symposia will not be included in the scientific programme submitted in the CME application due to CME compliance reasons. The company symposia opportunities are provided to congress sponsors as non-CME sessions.

Companies sponsoring symposia are therefore free to select their topic, structure their programme, invite speakers and manage their symposia content. However, symposia programmes and topics are subject to a final approval by the Congress Organising and Scientific committees, especially with a view to avoid duplication of topics.

Important note, in line with CME compliance rules, company symposia programmes cannot be included in the official scientific programme but will feature in a separate section.

Please see page 17 for additional information.

EXHIBITING AT IPIC2025

IPOPI requires that companies exhibiting at IPIC, which is a CME-accredited scientific congress, always comply with local regulations regarding exhibiting and distributing promotional materials at scientific meetings in the country where IPIC is taking place. It should be noted that a dedicated area is reserved for the exhibition at IPIC and that promotional items are clearly separated in the scientific programme. Most delegates at IPIC are doctors and other healthcare professionals.

The organisers also require all sponsoring and exhibiting companies to follow the European Federation of Pharmaceutical Industries and Associations – EFPIA - codes of conduct related to their participation at the IPIC2025 Congress as well as local CME compliance requirements.

Exhibition will be held in a closed area with controlled access and only HCPs will be granted access to this area. Exhibitors will be able to display product information in their stands. Despite approval from IPOPI and the Organising Secretariat on stand layout companies are the sole responsible for the accuracy and compliance information of the content displayed on their commercial area. At the entrance of the exhibition area a banner will state who can have access to pharmaceutical marketing information and activities.

COMPANY SYMPOSIUM OPPORTUNITIES

- Opportunity to organise a one-hour company symposium at IPIC2025, subject to availability
- Company symposia will be held in the main plenary room. There will be no parallel congress session or other symposium.
